**Mobilising Resource Revenues from the Mining Sector: Tackling Leakages and Building on the OECD/G20
Actions on Base Erosion and Profit Shifting**

Informal Brainstorming Meeting

Thursday, 20 October 2016
OECD Conference Centre, Room MZ04 -- 2, rue André-Pascal, Paris, France

Meeting Purpose and Objectives: To reinforce efforts to achieve the Sustainable Development Goals, Developing Countries need to understand how to identify and mitigate against practices in extractive industries that may result in revenue leakages. Building on the OECD/G20 Actions to stop Base Erosion and Profit Shifting, this targeted, experts-only Brainstorming Meeting will provide the opportunity to review the most pressing issues for mobilising revenues from mining, review existing efforts to address those issues and identify potential partnerships for further action.
